

# Tuckbox Template

## 2.75" x 4.75" Card

1/4" Outside Print bleed  
(can follow the shape of the box  
or fill the green outline, which ever is easier.  
Just make sure it is at least a quarter inch bleed  
all the way around.

Live Image Area  
2.475" x 4.475"  
All text and objects that  
are not meant to bleed off the edges  
of the box need to stay within these  
areas. You can have text and objects on the  
sides and top and bottom, but try not to get  
to close to the edge. There is no set containment  
area, but use discretion. I would say stay within 1/8" from  
the edge of those areas.
